Independent Auditor's Report

To the Board of Directors
RiverSouth Rural Water District
Ozark, Arkansas

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the RiverSouth Rural Water District, as of and for the years ended September 30, 2025 and 2024, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the RiverSouth Rural Water District as of September 30, 2025 and 2024, and the changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted on the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the RiverSouth Rural Water District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the RiverSouth Rural Water District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the RiverSouth Rural Water District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the RiverSouth Rural Water District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the information on cost-sharing pension plans on pages 27 and 28 be presented to supplement the financial statements. Such information is the responsibility of management and, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements. The accompanying schedules of bonds outstanding are presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standard generally accepted in the United States of America. In our opinion, the schedule of bonds outstanding is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2026, on our consideration of the RiverSouth Rural Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the RiverSouth Rural Water District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the RiverSouth Rural Water District's internal control over financial reporting and compliance.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

Nature of Operations

RiverSouth Rural Water District (formerly South Ozark Water Users' Association, Inc.) (the District) was incorporated December 22, 1977 under the provisions of Title 64, Chapter 19, Arkansas Statutes, Act 176 of the 1963 General Assembly. On December 15, 1994, the Quorum Court of Franklin County, Arkansas passed ordinance No. 1994-18 creating a Public Facilities Board under the Public Facilities Board Act. On May 23, 1995, South Ozark Water Users' Association, Inc. transferred all of its assets and liabilities, both tangible and intangible, to South Ozark Water Users Association of Franklin County, Arkansas. The formal change of the District's name was accomplished on Thursday, May 11, 2000, by the passage of an ordinance by the Franklin County Quorum Court amending the original ordinance passed on December 15, 1994, as mentioned above. The purpose of the District is to provide water for rural customers within the counties of Franklin, Sebastian, and Logan in Arkansas.

1. Summary of Significant Accounting Policies

Basis of Presentation

The District's financial statements are prepared in conformity with principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities.

The District accounts for its operations as an enterprise fund. An enterprise fund is a proprietary type fund used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Financial Reporting

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting and reflect transactions on behalf of the District. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Income Taxes

The District is exempt from income taxes as a governmental agency.

Cash Equivalents

For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents including restricted cash.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

1. Summary of Significant Accounting Policies (continued)

Investments

Investments consist of certificates of deposit which are stated at cost plus interest earned.

Accounts Receivable

Accounts receivable consists of water fees and surcharges billed to residential and commercial customers based on consumption. The District does not charge interest on overdue accounts but does charge a late fee for late payments. The allowance for doubtful accounts is estimated based on historical collection experience and management's evaluation of the collectability of outstanding receivables. The District has not recorded an allowance for doubtful accounts at December 31, 2024 and 2023, as the amount is immaterial to the financial statements. Uncollectible accounts receivable are charged directly against earnings when they are determined to be uncollectible.

Bad debt expense for the years ended September 30, 2025 and 2024, was \$6,905 and \$3,911, respectively.

Prepaid Expenses

Payments made to vendors for services that will benefit future periods are recorded as prepaid expenses using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expense in the year which services are consumed.

Inventory

Inventory consist of miscellaneous parts, accessories, and pipe and are valued at cost, which approximates market using the first-in, first-out method. The cost of inventory is recognized as an expense when used (consumption method).

Capital Assets and Depreciation

Capital assets of the District are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Expenditures for maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. The estimated useful lives of the assets are as follows:

Distribution system	10 - 50 years
Office furniture and equipment	3 - 10 years
Operating equipment	5 - 10 years
Building and improvements	10 - 40 years

It is the District's policy to capitalize asset purchases greater than \$5,000 and expense asset purchases less than \$5,000.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

1. Summary of Significant Accounting Policies (continued)

Subscription-Based Technology Arrangements

Subscription-based information technology arrangements (SBITA) are contractual agreements that convey control of the right-to-use another entities information technology asset, alone, or in conjunction with a tangible capital asset, for a minimum contractual period of greater than one year, in an exchange or exchange-like transaction. The District does not have any SBITA's in excess of one year.

Deferred Outflows / Inflows of Resources

In addition to assets, the Statement of Net Position has a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The District recognizes deferred outflows of resources related to pensions.

In addition to liabilities, the Statement of Net Position has a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District recognizes deferred inflows of resources related to pensions.

Compensated Absences

Employees earn vacation and sick pay in varying amounts based upon length of service with the District. Vacation must be used by the employees year-end anniversary date or it is lost. Employees can carryforward unused sick days from year to year. Upon termination from the District, employees are paid their accumulated unused vacation. No unused accumulated sick pay is paid upon termination. The amount of accrued compensated absences at September 30, 2025 and 2024 was \$9,432 and \$10,104, respectively.

Customer Meter Deposits

Customers are required to make a meter deposit before being connected to the water District. These deposits are refundable to customers when the District no longer services the customer. The District uses the customer deposits to pay the customers' final bill and refunds directly to the customer the balance remaining, if any, of the deposit.

Net Position

Net position of the District are classified in three components - net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

1. Summary of Significant Accounting Policies (continued)

Net Position (continued)

Net investment in capital assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

Restricted - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component of net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets".

The District does not have a policy addressing whether it considers restricted or unrestricted amounts to have been spent when expenditures are incurred for purposes for which both restricted and unrestricted amounts are available. District personnel decide which resources (source of funds) to use at the time expenditures are incurred. For financial statement classification of net position amounts, restricted resources are considered spent before unrestricted.

Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District consist of water sales and fees for miscellaneous services. Operating expenses include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. This will affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

1. Summary of Significant Accounting Policies (continued)

Regulatory Environment

The quality of water furnished to customers is subject to the requirements of the Environmental Protection Agency under the Safe Drinking Water Act and the Arkansas Department of Health.

New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) issued the following new accounting standards which became effective or portions thereof became effective during the District's fiscal year. The District adopted these procedures and added the appropriate disclosures.

GASB Statement No. 101, *Compensated Absences*. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. The objective is achieved by aligning the recognition and measurement and guidance under a unified model and by amending certain previously required disclosures.

GASB Statement No. 102, *Certain Risk Disclosures*. The objective of this statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The statement requires a government to assess whether a concentration or constraint makes the government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of substantial impact. Additionally the statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued.

2. Deposits and Investments

The District does not have a formal deposit and investment policy, but does follow state laws and bond ordinance resolutions.

State statutes generally require that municipal funds be deposited in federally insured banks located in the state of Arkansas. The municipal deposits may be in the form of checking accounts, savings accounts, and time deposits. Public funds may be invested in direct obligations of the United States of America, the principal and interest of which are fully guaranteed by the United States government.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, a District's deposits may not be recovered. At September 30, 2025 and 2024, all of the District's deposits were insured and/or collateralized.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

2. Deposits and Investments (continued)

The bank balances and carrying amount of the District's deposits held were as follows:

Description	At September 30, 2025		At September 30, 2024

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

2. Deposits and Investments (continued)

Investments (continued)

Interest Rate Risk

Interest rate risk is the risk the changes in interest of debt investments will adversely affect the fair value of an investment. The District's investments are not subject to interest rate risk as the investments are short-term in nature.

Credit Risk

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At September 30, 2025 and 2024, the District had credit risk of \$89,537 and \$118,577, respectively, for certain certificates of deposit exceeding FDIC limits. All other certificates of deposit and investments at September 30, 2025 and 2024 are covered by the FDIC or pledged securities.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of the counterparty the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. All investments held by the District or by an agent of the District are in the District's name.

Concentration of Credit Risk

Concentration of credit risk is the risk of a loss attributed to the magnitude of a District's investment in a single issuer. The District diversifies its investments by holding in multiple institutions.

The District's investments are categorized using fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The categories are as follows:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for identical investments in markets that are not active.

Level 3 - Unobservable inputs

The following table represents the Department's investments that are measured at fair value on a recurring basis at September 30, 2025:

	Level 1	Level 2	Level 3	Total
Certificates of deposit	\$ 1,457,617	\$ -	\$ -	\$ 1,457,617
Total	\$ 1,457,617	\$ -	\$ -	\$ 1,457,617

Total	\$ 1,631,158	\$ 440,923	\$ 2,072,081

Each of the District's outstanding notes from direct borrowings and direct placements contain different provisions for loan default including: outstanding principal and interest become immediately due and payable; appointing a receiver to administer the District on behalf of the issuer until all defaults have been cured; and assessing additional interest, penalties and other charges, foreclose on any security, offset amounts to be paid to you under other federal programs, refer the account to a collection agency and report the District's default to a credit agency.

7. Other Long-Term Liabilities - FSPWA Interlocal Agreement

On December 29, 2009, the District entered into an Interlocal Agreement with the Franklin and Sebastian Public Water Authority (FSPWA), and the Cities of Charleston and Lavaca, Arkansas (the Cities). All parties under the agreement desired to participate in the acquisition, construction, and equipping of a potable water transmission line, pump stations, water storage devices, and a potable connection and master meter with the waterworks system of the City of Fort Smith, Arkansas. Under the agreement, FSPWA agreed to acquire, construct, equip, operate and maintain the project and purchase and sell water to the District and Cities upon the projects completion. FSPWA retains all rights, title and interest of the project. All equipment necessary to the operation and maintenance thereof shall be owned and operated by FSPWA as a water source for the District and Cities. The District and the Cities agreed to construct, equip, and finance one or more master meters to connect to the project. The District and Cities also agreed to pay a share of all fixed and variable costs for the operation of FSPWA. The District's share of these costs is 15%. The District paid \$12,226 and \$10,161 of costs to FSPWA during the years ended September 30, 2025 and 2024, respectively.

Under a separate agreement, the District and Cities agreed to pay a portion of the principal and interest on a FSPWA loan totaling \$1,130,000. The loan bears interest at 2.75% and matures in June 2028. The District's share of the loan is 15% and the required monthly payment to FSPWA under this agreement is \$1,100. The District's portion owed on this debt was \$36,324 and \$48,299 at September 30, 2025 and 2024, respectively. The District paid \$11,975 towards principal and \$1,247 of interest on the loan during the year ended September 30, 2024. The District paid \$11,653 towards principal and \$1,569 of interest on the loan during the year ended September 30, 2024.

9. Commitments & Contingencies

The Bond Resolution of the 2021 Series Bonds contains a provision (the Rate Covenant) which requires the District to maintain their water rates at an amount sufficient to (1) pay all operation, repair and maintenance expenses, (2) make all required deposits into the Debt Service Fund, and (3) leave a balance equal to the debt service requirements for the year of all outstanding Bonds and Parity obligations, as well as maintain specific restricted cash accounts and to meet various other general requirements. The District was in compliance with all such significant financial covenants and restrictions at September 30, 2025 and 2024.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

10. Employee Retirement Plan

Plan Description

The District participates in the Arkansas Public Employees Retirement Systems (APERS). APERS is a cost-sharing, multiple employer, defined benefit plan which covers all State employees who are not covered by another authorized plan. The plan was established by the authority of the Arkansas General Assembly with passage of Act 177 of 1957. The costs of administering the plan are paid out of investment earnings.

The general administration and responsibility for the proper operation of the System is vested in the thirteen members of the Board of Trustees of the Arkansas Public Employees Retirement System (the Board). Membership includes: three state and three non-state employees, all appointed by the Governor, three ex-officio trustees, including the Auditor of the State, the Treasurer of the State and the Director of the Department of Finance and Administration, and four additional board positions that were added in Act 868 of the 2021 State of Arkansas legislative session. All of these four positions are appointed by the State of Arkansas Legislature. Two of these positions represent retirees with one being appointed by the House of Representatives and the other appointed by the Senate. The other two positions represent retired law enforcement with one being appointed by the House of Representatives and the other appointed by the Senate.

The state of Arkansas issues an annual report that includes financial statements and required supplementary information for APERS. That report may be obtained by writing to Arkansas Public Employees Retirement System, One Union National Plaza, 124 West Capitol, Suite 400, Little Rock, Arkansas 72201.

Summary of Significant Accounting Policies

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arkansas Public Employees Retirement System (the Plan) and additions to / deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Benefits Provided

Benefit provisions are set forth in Arkansas Code Annotated, Title 24, Chapters 5 and 6 and may only be amended by the Arkansas General Assembly. APERS provides retirement, disability and death benefits. Retirement benefits are determined as a percentage of the member's highest 3-year average compensation times the member's years of service. The percentage used is based upon whether a member is contributory or non-contributory as follows:

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

10. Employee Retirement Plan (continued)

Benefits Provided (continued)

Contributory, prior to 7/1/2005	2.07%
Contributory, on or after 7/1/2005, but prior to 7/1/2007	2.03%
Contributory, on or after 7/1/2007	2.00%
Non-Contributory	1.72%

Members are eligible to retire with a full benefit under the following conditions:

- at age 65 with 5 years of service,
- at any age with 28 years actual service,
- at age 60 with 20 years of actual service if under the old contributory plan (prior to July 1, 2005), or
- at age 55 with 35 years of credited service for elected or public safety officials.

Members may retire with a reduced benefit at age 55 with at least 5 years of actual service at age 55 or at any age with 25 years of service.

Members are eligible for disability benefits with 5 years of service. Disability benefits are computed as an age and service benefit, based on service and pay at disability. Death benefits are paid to a surviving spouse as if the member had 5 years of service and the monthly benefit is computed as if the member had retired and elected the Joint & 75% Survivor option. A cost-of-living adjustment of 3% of the current benefit is added each year.

Several benefit changes were made in the 2021 legislative session. These changes only apply to newly hired employees on or after July 1, 2022. Act 370 made the final average compensation for the retirement benefit calculation to be the average of the five highest annual compensations. Act 366 made the annual cost-of-living adjustment to be the lesser of 3% or the percentage change in the Consumer Price Index.

Contributions

Contribution requirements are set forth in Arkansas Code Annotated, Title 24, Chapter 4. The contributions are expected to be sufficient to finance the costs of benefits earned by members during the year and make a level payment that, if paid annually over a reasonable period of future years, will fully cover the unfunded costs of benefit commitments for services previously rendered (A.C.A. 24-2-701)(a)). Members who began service prior to July 1, 2005 are not required to make contributions to APERS. Members who began service on or after July 1, 2005 are required to contribute 5% of their salary. Act 365 of the 2021 regular legislative session put in place annual increases of .25% to this employee contribution rate beginning July 1, 2022 and continuing each year up to a maximum rate of 7%. Employers are required to contribute at a rate established by the Board of Trustees of APERS based on an actuary's determination of a rate required to fund the plan (A.C.A. 24-2-701(c)(3)). Employers contributed 15.32% of compensation for both APERS Plan fiscal years ended June 30, 2024 and 2023. In some cases, an additional 2.5% of member and employer contributions are required for elected officials.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

10. Employee Retirement Plan (continued)

Contributions (continued)

Contributions made by the District were \$29,939 and \$25,853 for the years ended September 30, 2025 and 2024, respectively.

APERS Fiduciary Net Position

Detailed information about APERS's fiduciary net position is available in the separately issued APERS Financial Report available at <http://www.apers.org/annualreports>.

Timing of the Valuation

The collective Net Pension Liability was measured as of June 30, 2024, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. Each employer's proportion of the Net Pension Liability was based on the employer's share of contributions to the pension plan relative to the total contributions of all participating employers. Based on this information, the District's proportionate share as of June 30, 2024 and June 30, 2023 was 0.00712261% and 0.00694569%, respectively.

There were no changes between the measurement date of June 30, 2024 and the District's report ending date of September 30, 2025, that would have had a significant impact on the net pension liability.

Actuarial Assumptions

The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Discount Rate	7.00%
Inflation	3.25% wage inflation, 2.50% price inflation
Salary Increases	3.25% – 9.85% including inflation
Investment Rate of Return	7.15%
Mortality Rate Table	RP-2006 weighted generational mortality tables for healthy annuitant, disability, or employee death in service, as applicable. The tables applied credibility adjustments of 135% for males and 125% for females and were adjusted for fully generational mortality improvements using scale MP-2017

All other actuarial assumptions used in the June 30, 2024, valuation were based on the results of an actuarial experience study for the period from July 1, 2017 through June 30, 2022, and were applied to all prior periods included in the measurement.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

10. Employee Retirement Plan (continued)

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for the 10-year period from 2024 to 2033 were based upon GRS' 2024 Capital Market Assumptions Modeler. For each major asset class that is included in the pension plan's target asset allocation as of June 30, 2024, these best estimates are summarized in the following table:

<u>Asset Class</u>	<u>Current Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Broad Domestic Equity	39%	5.03%
International Equity	17%	6.34%
Real Estate	16%	4.51%
Private Equity	5%	9.00%
Hedge Funds	2%	3.63%
Domestic Fixed	21%	3.38%
	<u>100%</u>	
Total Real Rate of Return		5.00%
Plus: Price Inflation - Actuary's Assumption		<u>2.50%</u>
Net Expected Return		<u>7.50%</u>

Single Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the June 30, 2024 valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 3.97% (based on the weekly rate closest to but not later than the measurement date of the Fidelity "20-Year Municipal GO AA Index"; and the resulting single discount rate is 7.00%.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

10. Employee Retirement Plan (continued)

Single Discount Rate (continued)

The single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially-determined contribution rates and the member rate. Based on these assumptions, the pension plan fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the participating employers' net pension liability, calculated using a single discount rate, as well as what the participating employers' net pension liability would be if it were calculated using a single discount rate that is 1% lower (6.00%) or 1% higher (8.00%) than the current rate:

Sensitivity of the Net Pension Liability to the Single Discount Rate

	1% Decrease 6.00%	Current Rate 7.00%	1% Increase 8.00%
Net Pension Liability	\$ 302,400	\$ 177,219	\$ 74,017

Pension Expense, Accrued APERS and Deferred Outflows/Inflows of Resources Related to Pensions

The District's proportionate share of pension expense was \$29,167 and \$33,381 for the Plan years ended June 30, 2024 and 2023, respectively. At September 30, 2025 and 2024, the District had an accrued APERS liability of \$1,029 and \$603, respectively, for the District's legally required contributions. At September 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following resources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 6,878	\$ 7,246
Changes in assumptions	6,176	-
Net difference between projected and actual earnings on pension plan investments	5,141	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	2,904	1,534
District contributions subsequent to the measurement date	37,026	-
Total	\$ 58,125	\$ 8,780

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

10. Employee Retirement Plan (continued)

Pension Expense, Accrued APERS and Deferred Outflows/Inflows of Resources Related to Pensions

\$37,026 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2026, any other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending September 30,	Net Increase (Decrease) in Pension Expense
2025	\$ (1,885)
2026	25,468
2027	(7,023)
2028	(4,241)
	\$ 12,319

11. Rental Income Lease Agreement

In August 2016, the District signed a lease agreement to rent space on certain water towers for the purpose of installing and maintaining wireless communications equipment. The lessee will pay the District \$50 per tower per month for a term of ten years.

Because this is a contract that conveys the control of the right to use a nonfinancial asset of the District for a period of time in an exchange transaction, the lease falls under the scope of GASB No. 87, *Leases*. Under the lease standard the District would need to record a lease receivable and related deferred inflow of financial of resources for the remaining contract period. As the remaining receivable balance on the contract was not material to the financial statements, the District did not record. The District recognized \$1,800 of rental income for both years ended September 30, 2025 and 2024, which is included in other services and income on the Statement of Revenues, Expenses, and Changes in Net Position. The lease expires in August 2026. Future minimum rentals to be received are approximately \$1,000.

The District will continue to evaluate all leases going forward to ensure compliance with the lease standard.

12. Concentrations of Credit Risks

a. Revenues & Receivables

Financial instruments that potentially subject the District to credit risk consist primarily of accounts receivable. The District provides unsecured credit to its customers. The District sells water to customers in Franklin, Sebastian, and Logan counties. The credit risk is considered minimal as the individual customer balances are relatively small and the customer base is consistent.

RIVERSOUTH RURAL WATER DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2025 AND 2024

12. Concentrations of Credit Risks (continued)

b. Water Supply System

The District purchases its water from the City of Ozark. If the cost of the water were to increase or the possibility of the District to have to obtain water from another supplier was to occur, this may have an effect on the District's ability to continue in its current state. The risk is minimal as the District has a twenty year contract with the City of Ozark allowing for water purchases not to exceed 19 million gallons per month expiring in 2030. Rates charged may be modified at the end of every two year period based on a demonstrable increase or decrease in the costs of performance.

The District's water expansion project connecting to FSPWA that was completed in July 2023, alleviates this risk by providing a secondary water source for customers.

13. Risk Management / Insurance Recoveries

The District is exposed to various levels of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for these risks of losses as well as other risks of loss such as workers' compensation insurance and general liability and property insurance.

There has been no significant reduction in the District's insurance coverage from the previous year. In addition there have been no settlements in excess of the District's coverage in any of the prior three fiscal years.

The District received insurance recoveries totaling \$6,432 during the year ended September 30, 2025, to repair hail damage to vehicles and to repair water tanks struck by lightening. The District received \$16,214 of insurance proceeds during the year ended September 30, 2024, for the repair of a valve damaged from a lightening strike.

14. Subsequent Events

The District has evaluated events and transactions for subsequent events that would impact the financial statements for the year ended September 30, 2025 through January 29, 2026, the date the financial statements were available to be issued. There were no subsequent events that require recognition or disclosure in the financial statements.

ADDITIONAL REQUIRED REPORT

Independent Auditor's Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Based on An Audit Of Financial Statements Performed In Accordance With *Government Auditing Standards*

To the Board of Directors
RiverSouth Rural Water District
Ozark, Arkansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of RiverSouth Rural Water District, as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise District's financial statements, and have issued our report thereon dated January 29, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered RiverSouth Rural Water District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of RiverSouth Rural Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of RiverSouth Rural Water District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether RiverSouth Rural Water District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
