INDEPENDENT AUDITOR'S REPORT

Arkansas Teacher Retirement System
Legislative Joint Auditing Committee

Report on the Schedules of Employer Allocations and Pension Amounts by Employer

We have audited the accompanying schedule of employer allocations of the Arkansas Teacher Retirement System , an Agency of Arkansas state government, as of and for the year ended June 30, 2020, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying schedule of pension amounts by employer of the Arkansas Teacher Retirement System as of and for the year ended June 30, 2020, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for the Arkansas Teacher Retirement System as of and for the year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

We have audited the financial statements of the Arkansas Teacher Retirement System as of and for the year ended June 30, 2020, in accordance with auditing standards generally accepted in the United States of America, and our report dated January 7, 2021, expressed an unmodified opinion on those financial statements.

Restrictions on Use

Our report is intended solely for the information and use of the Arkansas Teacher Retirement System's Board of Trustees and management, as well as the Arkansas Teacher Retirement System employers and their auditors, and is not intended to be and should not be used by anyone other than these specified parties. However, pursuant to Ark. Code Ann § 10-4-417, all reports presented to the Legislative Joint Auditing committee are matters of public record, and distribution is not limited.

NOTE 1: Summary of Significant Accounting Policies

A. Plan Description

ATRS is a cost-sharing, multiple-employer defined benefit pension plan that covers employees of schools and education-related agencies, including Arkansas School for the Blind, Arkansas School for the Deaf, Arkansas Activities Association, State Board of Education, regional education service cooperatives, ATRS, Arkansas Educational Television Commission, area vocational-technical schools, Arkansas Rehabilitation Services, enterprises privatized by a public school district, and educational nonprofit organizations licensed and regulated by Division of Developmental Disabilities Services of the Department of Human Services.

On June 30, 2020, the number of participating employers was as follows:

Public schools	262
State colleges and universities	39
State agencies	17
Other/privatized	<u>28</u>
Total	<u><u>346</u></u>

On June 30, 2020, ATRS' membership consisted of the following:

Retirees or beneficiaries currently receiving benefits	50,133
T-DROP participants	3,639
Inactive plan members (not receiving benefits)	13,338
Active members	
Fully vested	45,209
Non-vested	<u>21,691</u>
Total	<u><u>134,010</u></u>

Members are eligible for full retirement benefits at age 60 with five or more years of actual or reciprocal service or at any age with 28 or more years of credited service. Members with 25 years of actual or reciprocal service who have not attained age 60 may receive an annuity reduced by 10/12 of 1% multiplied by the number of months by which the early retirement precedes the earlier of (1) completion of 28 years of credited service or (2) attainment of age 60. The normal retirement benefit, paid monthly, is determined based on (1) the member's final average salary (FAS; effective July 1, 2018, computed using the average of the annual salaries paid during the period of 5 years of credited service producing the highest annual average) and (2) the number of years of service. For active members as of June 30, 2018, a benchmark 3-year FAS was established as a minimum FAS.

B. Basis of Presentation

The purpose of the Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer (Schedules) is to provide member employers with the information to report financial statement amounts in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*. These schedules present amounts that are considered elements of the financial statements of ATRS or of its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of ATRS or the participating employers.

NOTE 1: Summary of Significant Accounting Policies (Continued)

C. Basis of Accounting

Information about the fiduciary net position and change in fiduciary net position of the plan, as reported in the basic financial statements of ATRS, is recognized using the economic resources measurement focus and accrual basis of accounting. Under the accrual basis, contributions and other revenues are recognized when earned, and benefits, refunds, and other expenses are recorded when incurred. Investments are reported at fair value. All of these items are used in measuring the total net pension liability, total deferred outflows of resources and total deferred inflows of resources related to pensions, and total pension expense.

D. Basis of Allocation – Employer Contributions

The proportionate share of the total net pension liability, total deferred outflows of resources and total deferred inflows of resources related to pensions, and total pension expense was determined using actual employer contributions. Each employer’s proportionate share was calculated based on the ratio of their contributions to total contributions of all employers.

The general financial objective of all Arkansas public employee retirement plans is to have rates of contribution that remain relatively level for Arkansas citizens from generation to generation. ATRS’ funding policy provides for periodic employer contributions at statutorily-established rates based on annual actuarial valuations. The employer contribution rate was 14.25% for the fiscal year ending June 30, 2020. Contributory members are required to contribute 6.25% of gross wages to ATRS. Employee contributions are refundable if ATRS-covered employment terminates before a monthly benefit is payable. Employee contributions remaining on deposit with ATRS for a period of one or more years earn interest credits, which are included in the refund.

E. Use of Estimates

The preparation of the Schedules in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported during the period. Actual results could differ from those estimates, and differences could be material.

NOTE 2: Collective Net Pension Liability and Actuarial Information

The components of the net pension liability of the participating employers at June 30, 2020, were as follows:

Total pension liability	\$ 22,562,958,162
Plan net position	<u>(16,902,076,224)</u>
Net pension liability	<u>\$ 5,660,881,938</u>
Plan net position as a percentage of the total pension liability	74.91%

NOTE 2: Collective Net Pension Liability and Actuarial Information (Continued)

Actuarial Assumptions – The total pension liability, net pension liability, and certain sensitivity information was determined by an actuarial valuation as of June 30, 2020. The significant assumptions used in the valuation and adopted by the ATRS Board of Trustees were as follows:

Actuarial cost method	Entry age normal
Payroll growth	2.75%
Projected salary increases	2.75 - 7.75%
Investment rate of return	7.50% compounded annually
Mortality table	RP-2014 Healthy Annuitant, Disabled Annuitant, and Employee Mortality headcount weighted tables were used for males and females. Mortality rates were adjusted for future mortality using projection scale MP-2017 from 2006.

Table	Scaling Factor	
	Males	Females
Healthy Annuitant	101%	91%
Disabled Annuitant	99%	107%
Employee Mortality	94%	84%

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015.

Investment Rate of Return – The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the plan's trustees after considering input from the plan's investment consultant and actuary.

For each major asset class that is included in the pension plan's target asset allocation as of June 30, 2020, these best estimates are summarized in the following table:

Asset Allocation	Target	Long-Term Expected Real Rate of Return
Total equity	53.0%	5.2%
Fixed income	15.0%	-0.1%
Alternatives	5.0%	3.5%
Real assets	15.0%	5.1%
Private equity	12.0%	7.2%
Cash equivalents	0.0%	-1.0%
	100.0%

NOTE 2: Collective Net Pension Liability and Actuarial Information (Continued)

Single Discount Rate – A single discount rate of 7.50% was used to measure the total pension liability based on the expected rate of return on pension plan investments. The current member and employer contribution rates are 6.25% and 14.25% of active member payroll, respectively. Although not all members contribute, the member and employer rates are scheduled to increase by 0.25% increments ending in Fiscal Year 2023. The ultimate member and employer rates will be 7% and 15%, respectively. The projection of cash flows used to determine this single discount rate assumed that member and employer contributions will be made in accordance with this schedule. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the plan's net pension liability, calculated using a single discount rate of 7.50%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1% lower or 1% higher:

	1% Decrease	Current Rate	1% Increase
	6.50%	7.50%	8.50%
Net pension liability	\$ 8,423,120,901	\$ 5,660,881,938	\$ 1,943,113,576

NOTE 3: Deferred Outflows and Inflows of Resources Related to Pensions

For fiscal years ended June 30, 2020, 2019, 2018, 2017, and 2016, the components of collective deferred outflows of resources and deferred inflows of resources related to pensions, by type, are as follows:
